Profile Summary

Machine Learning Engineer focusing on Computer Vision and Natural Language Processing, with hands-on experience developing deep learning models using PyTorch and TensorFlow. Skilled in implementing state-of-the-art architectures including Transformers, CNNs, and LSTMs for real-world applications. Passionate about combining theoretical ML knowledge with practical engineering solutions to build models that scales.

Technical Skills

Programming Languages: Python, SQL
Web Development: HTML, CSS, JavaScript, Bootstrap, React.js, Express.js, Node.js, Responsive Web Design
Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Plotly
Database: MongoDB (Collections, Documents, Queries, Subqueries, Co-related Subqueries)
DevOps Tools: Docker, Git, GitHub, Shell Scripting
AI/ML: Deep Learning, LLMs, Google Gemini AI
Others: OOPS Concepts, Data Structures and Algorithms (DSA), Agile Methodology (Scrum, Sprint Planning, Retrospective Meetings)

Projects

Crop Yield Prediction 	01/2025 – 05/2025
Developed a web-based Crop Yield Prediction application to enhance agricultural forecasting with historical data on rainfall, pesticide use, temperature, and location. Integrated machine learning models with Google Gemini AI to provide precise, AI-based insights. Delivered a user-friendly platform that offers dependable yield predictions across countries, supporting data-driven decisions in agricultural planning.	

Education

B.TECH CSE(AIML) SRM Institue of Science and Technology Percentage:9.33 CGPA	2026
School HSC Mahendra International School (CBSE) Percentage:85.2%	2022
School SSLC Mahendra International School (CBSE) Percentage:83%	2020

Courses

Introduction to Containers w/ Docker, Kubernetes & OpenShift
COURSERA

Fundamentals of Deep Learning
NVIDIA

Languages Known

Tamil, English

Hobbies

Listening Music, Travel
